

SCORPIO

Electrical Contractors

For Expert Electrical Installations

Scope of services

We offer a comprehensive range of electrical services, encompassing:

- General electrical installations
- Fire alarm systems & emergency lighting
- Maintenance contracts
- Security systems
- Energy saving projects
- NICEIC Periodic testing, inspection and remedial works
- New and refurbishment installations for prestigious housing projects
- Access control
- Data wiring
- CCTV

If your particular requirement is not listed here, please just ask – there's not much we can't do!

Sector experience

Adaptable and with many years expertise, we work across a diverse spread of industry sectors:

- Commercial
- Industrial
- Office
- Retail
- Housing Associations
- Decent Homes
- New build, renovation & refurbishment
- Care Homes, Community & Day Centres
- Local Authorities: Schools/Colleges, Town Halls, Civic Buildings

Irrespective of scale or type, we apply exceptional attention to detail on every contract and observe all professional standards and requirements – including CRB checks for our staff involved in projects in school and care home environments.

Energy efficiency

We consider all projects in the context of energy conservation; this means our recommendations and quotes are based upon the most energy efficient options. All installations – new build or refit/remedial works – are undertaken in line with current Government regulations in this area.

We can advise on Carbon Trust schemes including pay-back and interest free self financing loans.

Testimonials

"We have employed Scorpio as our electrical subcontractor on numerous occasions over the last twelve years.

We have found Scorpio always to be reliable, completing contracts on time and to budget and dealing with any issues promptly and in an efficient manner.

We are very happy to recommend them to any prospective clients."

Mike Whyte
Director – Thameside Interiors Limited

"Scorpio Electrical has worked as our partnering contractor for the past 4 years and during this time have carried out numerous projects ranging from responsive repairs to large installations. Their professionalism and quality of work have made them an ideal partner for Housing Solutions"

Mark Warner
Service Area Manager – Housing Solutions Limited

Our people

All contracts are handled by a team who work closely together under the leadership of a Senior Project Manager. A typical team will comprise:

Estimator – prompt, accurate and competitive quotations and tenders carried out free of charge by fully experienced estimators.

Senior Manager – main point of contact for client; responsible for scheduling of works, keeping client fully updated. Overseeing of project development and communication with other team members.

Approved electricians – all of whom are qualified to 17th edition (latest IEE wiring regulations). Regular attendance at training courses ensures they are always up to date on testing and health and safety.

Trainee electricians - we are proud of our ongoing support for trainee electricians whilst they undertake the three-year college apprenticeship. Once qualified, we encourage them to remain with us whilst they gain important additional experience in all aspects of electrical installation work.

Full time dedicated NICEIC qualifying officer – ensures that all work is correctly tested and registered, where required, with the NICEIC.

Administration – highly efficient team to manage everyday tasks such as purchasing, sales, accounts, Niceic, Chas & Constructionline and marketing.

Accreditations – your assurance of quality

All our work is tested to BS 7671 – the national standard in the UK for low voltage electrical installations. Furthermore, the quality of our workmanship, professionalism and safety standards is recognised by the following industry bodies:

NICEIC

This is the electrical contracting industry's independent voluntary body for electrical installation and testing. As NICEIC registered contractors, Scorpio Electricals is re-assessed on a regular basis to ensure we are maintaining high technical and safety standards and complying with all relevant codes of practice.

CHAS

The Contractors Health & Safety Assessment Scheme is recognised as the market leader for health and safety pre-qualification in the UK. As accredited suppliers, we are able to show our compliance with all relevant health and safety regulations.

Constructionline

The Government's national register for suppliers, it provides the pre-qualification tool for use in financial standing, technical references and other areas. Being a Constructionline recognised company helps our potential clients expedite the vetting procedure when considering us for a contract.
